Granville, Ohio, 43023 | (346) 408-6085 | khamhlamdo209@gmail.com | linkedin.com/in/lamdo209/

EDUCATION

Denison University, Granville, OH

Expected Graduation: May 2026

Bachelor of Science, Computer Science | Minor in Digital Humanities

GPA: 4.00

- Awards: Dean's List, Forbes B. Wiley Award, Daniel Donald Bonar Award, Kato Award
- Relevant Coursework: Data Structures & Algorithms, Computer Systems, Network Security

TECHNICAL SKILLS

- Programming Languages: Python, C++, C#, TypeScript, JavaScript
- Frameworks & Tools: React, Node.js, Express.js, LangChain, SQL/Sequelize, AWS (EC2, RDS), Postman
- AI Development Tools: GitHub Copilot, GPT Codex, Claude Code

WORK EXPERIENCE

AILA - Artificial Intelligence Language Assistant

Sep 2024 – Present

Software Engineer Intern

Granville, OH

- Built an **AI-powered language learning platform** that provides personalized feedback using **OpenAI and LangChain**, reducing professor grading time by **~6 hours per class**.
- Deployed a **live system used by 30 students** in an Intermediate Spanish course, hosting the application on **AWS EC2** with an **8-entity relational database on AWS RDS**.
- Designed a consistent frontend system, implementing **20+ reusable React components** and **10 pages** to support interactive question and feedback workflows.

SiliconPrime Labs

May 2025 – Aug 2025

Software Engineer Intern

Torrance, CA

- Engineered features for **BJ's Restaurants** website (**280+ locations**), handling **200k+ daily API calls** and resolving **25+ full-stack tickets** using React and Node.js.
- Built a **mobile payment system** supporting **Apple Pay and PayPal**, implementing **query-string routing** to support both guest and authenticated user paths.
- Secured authentication for **5,000+ daily users** by integrating **Google reCAPTCHA v3** into account flows.
- Delivered production features through **twice-weekly releases** and presented in **3 code reviews**.

PUBLICATIONS AND PROJECTS

"The Power of Two: Simplified User Interaction for the Indistinguishability Query" – SSDBM

Jun 2025

First-Author Publication, Best Paper Award

- Solved the cold start problem in recommender systems by designing **two C++ algorithms** that rank items using only simple pairwise user interactions.
- Outperformed existing algorithms, achieving up to **10x faster runtime** and **~80% lower error rates**.

Tidy Turtles

Jan 2025 – May 2025

Game Developer

- Engineered an **environmental education game** promoting ocean conservation, designing a 2-player cooperative experience in **Unity (C#)** that reached **50+ players** at a public showcase.
- Collaborated in a **4-person Agile** team to develop **10 levels** and **4 core mechanics** (trash sorting, oil spill cleanup, teleport gates), earning **Crowd Favorite** recognition.

ACADEMIC EXPERIENCES

Academic Resource Center, Denison University

Aug 2023 – Present

CS Teaching Assistant & Head Tutor

- Delivered **170+ hours of tutoring** and weekly **5-hour TA sessions**, supporting **30-40 students** per semester in Python, C++, data structures, and algorithms.
- Evaluated **7 programming projects** and provided feedback on **~20 daily homework assignments**, compiling results and reporting to faculty to improve student learning outcomes.

LEADERSHIP AND INVOLVEMENT

Computer Science Department, Denison University

Aug 2024 – Present

Department Fellow

- Represented the department and organized **5 events** for majors (internship panels, game nights, programming contests), collaborating with faculty and 7 fellows.
- Increased **event attendance by 2x** compared to prior semesters.
